BUSTAN PRINTS

If you can think it, we can ink it.

www.bustanprints.com

Offset Printing

Offset Printing is a common printing technique in which the inked image is transferred (or "Offset") from a plate to a rubber blanket and then to the printing surface

Digital Printing

Digital Printing is the process of printing digital-based images directly into a variety of media substrates. There is no need for a printing plate, unlike with offset printing.

Food Packaging

The wrapping material around a consumer item that serves to contain, identify, describe, protect, display, promote and otherwise make the product marketable and keep it clean.

Barcode Computer Forms

Computer forms is designed for us with Dot-Matrix and line printers with appropriate paper feed mechanisms. others names for computer form is continuous forms which includede fan-fold paper, sprocket feed paper, tractor-feed paper, and pin feed paper. it can be single ply or multi-ply

Screen Printing

Screen printing is the process of transfereing a stencilled design into a flat surface using a mesh screen ink and a squeegee. Fabric and paper are the most commonly screen printed surfaces, but with specialised inks it's also possible to print into wood, metal, plastic & even glass.

Luxury Boxes

Luxury packaging has a retail advantage as products that appear more attractive will stand out on the shelf. This can include luxurious materials like velvet, gold foil, or high-quality paper, as well as intricate designs and patterns that catch the eye.

Promotional Gift Items

Promotional Gifts are any items handed out for promotional and marketing purposes. Promotional items always have a business logo to increase brand awareness and visibility.

Customized Luxury Paper Bags

Paperbags custom printing in any size & Shapes, affordable paper bags production. type of bags, Grocery bags, Flat bags, Event Paper Bags, Jewelry bags, Occasional, Twisted kraft paper bags etc...

BUSTAN
IT & WEB SOLUTION

www.bustangroup.ae

CCTV Camera

Reviewing CCTV footage can help you identify these hazards. Then, you can put systems in place to manage and strengthen workplace safety.

Wifi & Wireless Solution

A wireless or wifi network uses a radio frequency signal instead of wires to connect you devices such as computers, Printers and smartphones to the internet and each other. The wifi signal can be picked up by any wireless capable device such as a laptop or tablet within a certain distance in all directions.

IP PABX

IP PBX Phone system place and receive phone calls over the internet. it does so by converting analog voice signals into digital.

Telephony Exchange

The wrapping material around a consumer item that serves to contain, identify, describe, protect, display, promote and otherwise make the product marketable and keep it clean.

Software Solution

A software solution in typically custom built or configured to solve a specific customer problem. it could include. Custom software development. Customized Assembly of multiple software product. Custom implementation of existing software platforms or products.

Server Solutions

A server is a specially designed computer system which can process requests and deliver data to other computers over a local networks. Servers are typically configured with additional processing power, memory and storage capacity.

Data Recovery

Data recovery is the process of restoring data that has been lost, accidentally deleted, corrupted or made inaccessible.

Time Attendance System

Time and attendance systems (TNA) are used to track and monitor when employees start and stop work.

Data Solution

Data Solutions offers configured software solutions and implementation support to rapidly deploy data collection, data integration and data visualization programs across the enterprise.

Firewall Solution

A firewall is a network security device that monitors and filters incoming and outgoing network traffic based on an organizations previously established security policies.

Website Design & Development

Web Design and Development is an umbrella term that describes the process of creating a website. Like the name suggests, it involves two major skill sets: web design & Web Development.

Domain & Hosting

The main difference between domain and hosting is that domain is the address, which allows a visitor to easily find your website online, while hosting is where the website files are stored. In order to have a functioning website, you need both a domain & hosting space.

(Branding, Vehicle Wrapping, 3d Sign Board, Acrylic Works)

Divison of Bustan Group

BUSTAN
ADVERTISING

www.bustanadvertising.com

Signages

Signages is the design or use of signs and symbols to communicate a message. A signage also means signs collectively or being considered as a group.

Wide Format Printing

The term refers to printed materials that are too big for most standard commercial printing presses also known as "Wide Format printing". Large format printing uses special production equipments that can handle larger than normal print dimensions.

Branding

Branding is the process of creating a strong positive perception of your company and its products in your customer's mind.

LED Screens

Your Indoor & Outdoor LED screens can help you engage customers visually in the market in context to trigger impulse buys, enhance your brand and encourage self service. Ultimately your digital signages can help you grow your revenue, increase customer engagement and improve customer experience.

Exhibition Stands

A section of an exhibition where a particular company shows their products or information about their products.

Vehicle Branding

A marketing vehicle is a specific tool for delivering your advertisement to a target audience. They are particular channels within a medium that you use to get your message across. Marketing vehicles are contained within marketing mediums.

Label Rolls

STICKERS are decorative. LABELS convey product information. STICKERS are used as promotional items. LABELS are used for product packaging, shipping, asset identification, barcoding, and more.

Uniforms

They're an easy and affordable way to spread the word about your business, and they offer a high level of visibility, since people wear t-shirts everywhere they go. Another benefit of custom t-shirt printing is that it is a great way to show team spirit.
